

Simplify Terrazzo Floor Care with SmartFloor™

BEFORE

AFTER

Stripping and waxing requires extensive labor and is usually performed twice a year, with costs reaching up to \$2.25 per sq/ft. Experts recommend sealing concrete and terrazzo floors every 2-5 years.

SmartFloor™
Sustainable Flooring Solutions

The Ameripolish® SmartFloor™ System offers advanced technology for maintaining terrazzo floors.

No Stripping

No Waxing

Eliminate the need for harsh chemicals and time-consuming processes.

Long-Lasting Shine

Refine and maintain floors without dulling.

Safer, More Sustainable Process

Fewer chemicals. Less waste. Lower environmental impact.

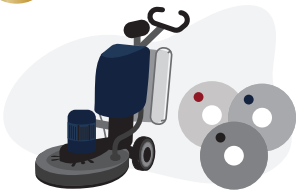

Cost-Effective Care

Reduce labor, materials and downtime.

SmartFloor™ System: 2 Easy Steps for Terrazzo

1 REFINEMENT

SmartFloor™ Refinement removes layers of wax and refines the floor to restore its brilliance and shine while transitioning it for maintenance.

- Engineered for speed, efficiency and simplicity, allowing contractors to rejuvenate and refine terrazzo floor faster and with less downtime.
- Pads attach easily with Velcro holders for quick pad changes.

View the SmartFloor™ Refinement System at work here.

2 MAINTENANCE

Regular use of SmartFloor™ tools and cleaner lifts dirt and fine abrasives that can scratch and dull terrazzo, preserving clarity and gloss.

- Compatible with walk-behind and ride-on autoscrubbers.
- Simple, color-coded pad system for easy selection and change-out.
- Uses advanced composite resin abrasive technology.

A Smarter Solution

- Reduce product inventory – one system for long-term terrazzo care
- Deliver greater value to your customers with lower lifetime floor care costs
- Support sustainability goals with greener maintenance methods
